

## Fiber Optic Inspection Scope and Adapters

See connections in a different light.

### FEATURES

#### *Fiber Optic Inspection Scope:*

- 100X power magnification with an 8-power retractable loupe for viewing ST®, SC, and many FC connectors.
- Threaded knurl may be removed for adaptation to SMA, Biconic, and D4 connection adapters.

#### *Angled-Head Scope Adapter:*

- Provides unique inspection view that eliminates the need for backlighting in mark-free inspection applications.
- Fits the Fiber Optic Inspection Scope.

#### *MT-RJ Scope Adapter:*

- Optional adapter for use with MT-RJ connectors.
- Fits the Fiber Optic Inspection Scope.

#### *LC Scope Adapter:*

- Optional adapter for use with LC connectors.
- Fits the Fiber Optic Inspection Scope.
