Premise Tool Kit

The complete kit for crimping, punching down, testing, and mapping your copper cables.

FEATURES

- **All the tools you need to prepare and install CATV coax cables, flat satin telephone cables, and data network (USOC, TIA-568A, or TIA-568B) cables.**
- **Use tone generator/probe to test RJ-11 and RJ-45 connections, and map data and telephone installations.**
- **LAN Pro Data Network Cable Tester provides pass/fail results on twisted-pair and coax cabling in seconds.**

FT145A

OVERVIEW

Why buy a number of individual cable tools and testers for your premise cabling jobs when you can order this complete kit instead?

We've identified the must-have tools used by data, voice, and coax installers and put them in the BLACK BOX® Premise Tool Kit. Included in the heavy-duty carrying case are tools for cutting, stripping, and crimping. Die sets and adapters are also provided.

You also get test sets for tone tracing UTP, STP, and flat satin cables. To quickly test both twisted-pair and coax cable for opens, shorts, crossed wires, and split pairs, use the included LAN Pro Data Network Cable Tester. It gives you pass/fail results quickly at the press of a button.

WHAT'S INCLUDED

- ✦ Crimp Tool Frame (FT001)
- ✦ RJ-45 WE/SS and RG-6/RG-60 CATV Female Combination Die Set (FT008)
- ✦ RJ-45 AMP/Tyco Modular Plug Die Set (FT005)
- ✦ RJ-11/-12 WE/SS Modular Plug Die Set (FT003)
- ✦ Professional Impact Punchdown Tool (FT025A)
- ✦ 110 Punchdown Blade (FT026A)
- ✦ 66 Punchdown Blade (FT027A)

Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

Recognize any of these situations?

- **You wait more than 30 minutes to get through to a vendor's tech support.**
- **The so-called "tech" can't help you or gives you the wrong answer.**
- **You don't have a purchase order number and the tech refuses to help you.**
- **It's 9 p.m. and you need help, but your vendor's tech support line is closed.**

According to a survey by Data Communications magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.
